Traffic (772) 871-7208 To the Citizens of St. Lucie County, Florida and the Honorable Members of the Board of County Commissioners:

The Comprehensive Annual Financial Report (CAFR) of St. Lucie County, Florida for the fiscal year ended September 30, 2011, is submitted respectfully for your review. State law requires that a complete set of financial statements be published within nine months after the fiscal year end and presented in conformance with Generally Accepted Accounting Principles ("GAAP") as applicable to governmental entities and audited in accordance with generally accepted auditing standards by licensed, independent certified public accountants. This report is issued to fulfill those statutory requirements.

The CAFR was prepared by the Finance Department of the Clerk of the Circuit Court of St. Lucie County in accordance with Section 218.32, Florida Statutes. Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with the management of the County. We believe the financial and statistical information presented is accurate in all material respects, and is set forth in a manner designed to fairly present the financial position and results of operations of St. Lucie County (the "County") as measured by the financial activity of its various funds. The report contains all of the disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs.

The County has established a comprehensive internal control framework to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and ensure that the financial records for preparing financial statements and maintaining accountability for assets are reliable. The concept of reasonable assurance recognizes that the cost of controls should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires judgments and estimates by management. All internal control evaluations occur within the above framework. We believe that the County's internal controls adequately safeguard assets and provide reasonable assurance of properly recorded financial transactions.

In accordance with Section 11.45 and 125.01, Florida Statutes, the St. Lucie County financial statements were audited by Berger, Toombs, Elam, Gaines &

Frank, Certified Public Accountants, PL. This firm is independently licensed to perform the functions of certified public accountants.

In addition to meeting the requirements set forth in State Statutes, the audit was also designed to meet the requirements of the Single Audit Acts of the State of Florida and the government of the United States of America. The standards governing single audit engagements require the independent auditor to report on the government's internal controls and compliance with legal requirements with specific emphasis on the administration of federal and state awards. Information related to the single audit, including schedules of expenditures of federal awards and state projects and the independent auditor's reports thereon are included in this report. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement.

The audit was performed to provide reasonable assurance that the financial statements are free of material misstatement for the fiscal year ended September 30, 2011. The audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified ("clean") opinion that the County's financial statements for the fiscal year ended September 30, 2011 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it.

PROFILE OF ST. LUCIE COUNTY

The name "St. Lucie" was introduced by the Spanish in 1565 after the Roman Catholic Saint Lucia. The current St. Lucie County was known as East Florida in 1810. In 1821 the area was renamed St. Johns County. St. Johns was split into several counties in 1840 and this area became Mosquito County. Forty years passed, and in 1880 the borders were again changed and we became Brevard County. On July 1, 1905, St. Lucie County, Florida was established with Fort Pierce as the county seat. Portions were stripped away over the years between 1917 and 1925 to become part of the present-day neighboring counties.

St. Lucie County is located on the eastern edge of the south-central coast of Florida in the heart of the Treasure/Research Coast region. It is bound on the north by Indian River County, the west by Okeechobee County, the south by Martin County and the east by the environmentally rich Indian River Lagoon and beautiful Atlantic Ocean. The City of Fort Pierce (the County Seat) is located approximately 60 miles north of West Palm Beach and 100 miles southeast of Orlando.

St. Lucie County is a political subdivision of the State of Florida, pursuant to the provisions of Section 7.59, Florida Statutes. The Board of County Commissioners (The "Board"), is a five-member board elected at-large from the five districts within the County. The Board operates as a non-charter government pursuant to Article VIII, Section (1) (f), of the Constitution of the State of Florida.

In addition to the Board, there are five elected Constitutional Officers performing specifically designated governmental functions: Clerk of the Circuit Court ("Clerk"), Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector. The St. Lucie County Board of Commissioners exercises a varying degree of budgetary control, but not administrative control, over the activities of the constitutional officers. During fiscal year 2010-11, the Sheriff and Supervisor of Elections each operated their respective offices as budget officers with funding provided by the Board. In return, each budget officer is responsible for the collection of revenues within their jurisdictional area and for the subsequent remittance of such collections to the Board.

The Tax Collector and Property Appraiser operate as fee officers while the Clerk of the Circuit Court operates a portion of his office as a budget officer, with the remainder being operated as a fee officer. Fee officers are authorized to retain revenues generated within their offices for the purpose of defraying the costs of operation. The Clerk of the Circuit Court serves as ex-officio Clerk to the Board of County Commissioners. The duties of the Clerk, as set forth in the Florida Constitution, include those of County auditor, accountant and custodian of County funds.

The primary government includes the Board of County Commissioners, Clerk of the Circuit Court, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector. The Board of County Commissioners serves as ex-officio governing board and maintains accounting records for the St. Lucie County Mosquito Control District, the Erosion Control District, the St. Lucie County Water and Sewer District, the St. Lucie County Housing Finance Authority, and the Central Florida Foreign-Trade Zone, Inc. These dependent districts are blended in with the financial activity of the County in the general fund, special revenue fund and proprietary fund types.

The County's financial statements also include the county's share of operating expenses for the Office of the Medical Examiner, 19th District.

Pursuant to Section 200.06, Florida Statutes, budgets are prepared and adopted for the Board after public hearings for the governmental funds. The Constitutional Officers submit, at various times, to the Board and to certain divisions within the State of Florida Department of Revenue, a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them, as set forth in Chapter 129 Florida Statutes. The State of Florida Department of Revenue has the final authority on the operating budgets for the Tax Collector and Property Appraiser included in the General Fund.

The County utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. The legal level of budgetary control is at the fund level. All budgeted appropriations lapse at year end. Formal budgets are adopted for the general,

special revenue, debt service, and capital projects funds at the fund level. As a result, deficits in the budget columns of the accompanying financial statements may occur.

The information presented in the financial statements is best understood when considered from the broader perspective of the environment within which the County operates.

LOCAL ECONOMY

St. Lucie County's population in 2011 was estimated at 279,696, which is largely concentrated in the eastern portion of the County that is within 5-10 miles of the Atlantic Coast. This is a 46% increase over figures from the 2000 Census population of 192,695 and a considerable 87% increase since 1990's census population of 150,171.

Based on 2010 census, the County's median age was 42.4 and the County was ethnically comprised of 71.8% white, 19.10% black, 16.6% Hispanic, 1.6% Asian, 1.4% American Indian and Alaskan Natives, and 0.1% Native Hawaiian and other Pacific Islanders.

Service, tourism, agriculture and light manufacturing are the principal industries within the County. While St. Lucie County, Florida is poised to take advantage of its location, climate and abundant workforce; growth in employment opportunities has not kept pace with the growth in population. From 2005 to 2010, the County had been greatly affected by the economic downturn with rising unemployment rates. In 2010, the County's unemployment rate reached 14.1% while the State's rate was 11.5%. However, the 2011 preliminary unemployment rate is estimated to be 13% while the State's rate is 10.6%. This indicates some improvement in the job market, but still far from normal.

The County saw tremendous growth between 2003 and 2008. Between 2008 and 2011, the total property value decreased by 41%. New construction permits went from 1,078 in 2004, its highest level, to 85 in 2011. Existing single-family home sales for 2011 are down by 6% from the prior year level while the State is up by 7.8%. The median sales price for the single-family home sales is down by 0.3% while the State is down by 3.1%. All result from the slowdown in the housing market.

With the state of the regional and global economies, the County is cautiously and conservatively planning for the near-term.

RELEVANT FINANCIAL POLICIES

The County has established a fund reserve policy to ensure that sufficient cash is available in the coming year to meet the County's obligations until future anticipated revenues are available. The County's goal is to protect essential service programs during periods of economic downturn or unforeseen catastrophic events. A reserve for contingency may be budgeted in each of the County's funds. At the Board's discretion, these funds may be allocated as needed during the year to fund unexpected operations or events.

The County also maintains a committed Emergency Reserve in the General Fund. The amount should be 5% of the total operating budget excluding funds that have a minimum of 10% of the fund's operating budget or \$2 million in reserves, whichever is greater. The County may only use all or a portion of this committed Emergency Reserve for either natural or manmade disasters.

Another financial policy of the County is its commitment to maintain a fund balance reserve in the General Fund equal to 5% of the General Fund operating budget. By a majority vote, the County may use all or a portion of this fund balance reserve to address unanticipated revenue shortfalls or any unforeseen expenditures not necessarily resulting from a natural disaster.

LONG-TERM FINANCIAL PLANNING

The County adopts a five-year capital improvement program annually which includes requests and input from all departments and Constitutional Offices. Each request includes a proposed funding source and estimated operating costs. The dramatic decrease in County tax revenues and impact fees have forced new capital projects to be postponed. In some cases planned projects have been removed from the capital improvement plan. The guidelines have shifted to limit new projects to those that will be either funded or matched with grants or contributions. Major projects completed in FY 2011 include Lennard Road Preliminary Project Development and Environmental Study and Walton Road Widening - US#1 to Village Green Drive.

The following material capital projects are either on-going or are planned to be completed in the near future:

- Walton Road Widening Village Green to Lennard Road
- North Lennard Road MSBU Widening North Lennard Road to Prima Vista Blvd
- Midway Road Widening St. James Drive to east of Turnpike bridge
- TCERDA Park Research and Development
- · Queens Island Preserve subdivision road project

Funding for these projects will come from impact fees, gas taxes, grants, debt proceeds, and special assessments.

MAJOR INITIATIVES

Due to the anticipated decline in revenues, current economic conditions, and the projected budget gap for the fiscal year 2012 through 2014, the County initiated an aggressive

assessment of operations of its current and future fiscal position. In addition to offsetting the budget gap by utilizing the accumulated fund balance, the County's focus shifted to prioritizing projects and providing services where needed most.

Major sustainable measures include the following:

- A substantial reduction in inmate hospital medical costs due to a newly negotiated rate with Lawnwood Regional Medical Center and Heart Institute;
- · Reductions to the County's Health Insurance premiums;
- Shifting \$700,000 in taxes from Stormwater MSTU to the General Fund;

The County has received approximately \$3.24 million in American Recovery and Reinvestment Act (ARRA)(Federal Stimulus Dollars) awards from the Department of Energy, Energy Efficiency and Conservation Block Grant Program. An interlocal agreement with the Solar and Energy Loan Fund (SELF) of St. Lucie County Inc., a Florida not-for-profit corporation was established in December 2010 to administer "the Kicking Kilowatts on the Treasure Coast" program. Major parts of the grant funds are to be used for residential and commercial building energy audits and low interest loans for energy efficiency improvements. As of September 30, 2011, 83 energy audits and 33 energy efficiency improvement loans have been granted through SELF.

On March 1, 2011, St. Lucie County opened the Employee & Family Health Care Center (Clinic), located at 2200 Virginia Avenue, Fort Pierce, FL. The Clinic is administered by CareHere, LLC and provides on site full medical services to employee and their dependents. Construction and equipment cost to start this facility were approximately \$310,000. Anticipated annual savings for the first year of operation is estimated to be approximately \$800,000. The County is anticipating future savings to be more than \$1.2 million annually. Since the opening of the Clinic, there has been an average utilization rate of 91%.

All of the above initiatives serve as reinforcements of the County's vision and philosophy regarding long-range planning, infrastructure and strategic spending.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to St. Lucie County for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2010. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both U.S. generally accepted accounting principles and applicable legal requirements. This is the seventh consecutive year the County has received the award. A Certificate of Achievement is valid for a period of one year. We believe that our current

comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting this document to the GFOA to determine its eligibility for another certificate.

The GFOA has also given an Award for Outstanding Achievement in Popular Annual Financial Reporting to St. Lucie County, for its Popular Annual Financial Report (PAFR) for the fiscal year ended September 30, 2010. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year. This is the first year the County has received the award.

In addition, the County also participates in GFOA's Distinguished Budget Presentation Award Program. In order to qualify for the Distinguished Budget Presentation Award, a budget document must be judged proficient in several categories including policy documentation, financial planning and organization. The County has received this award for twelve fiscal years.

A Comprehensive Annual Financial Report of this magnitude would not be possible without the dedicated service of our hard-working Finance Department professionals of the Clerk's Office, and the accounting firm of Berger, Toombs, Elam, Gaines & Frank, Certified Public Accountants, PL. Their efforts toward improving accounting and financial reporting systems have led to the enhanced quality of information reported to the Board of County Commissioners, state and federal agencies and most importantly, the citizens of St. Lucie County.

It is a privilege to share this information with you by virtue of the authority granted to me as the independently-elected Clerk of the Circuit Court in Article VIII, Section (1) (d) of the Constitution of the State of Florida as *auditor*, *recorder*, *and custodian of all county funds*.

Independent Auditors' Report

The Honorable Board of County Commissioners St. Lucie County, Florida

We have audited the accompanying basic financial statements of St. Lucie County, Florida (the County) as of and for the year ended September 30, 2011, as listed in the table of contents. These basic financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County as of September 30, 2011, and the respective changes in financial position, cash flows thereof, and the respective budgetary comparison for the General Fund and the Major Special Revenue Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated March 26, 2012 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Honorable Board of County Commissioners St. Lucie County, Florida

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and budgetary comparison schedules nonmajor governmental funds are supplementary information required by accounting principles generally accepted in the United States of America. The accompanying schedule of expenditures of federal awards and state projects is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations, and the Florida Department of Financial Services Projects Compliance Supplement and is not a required part of the basic The combining and individual nonmajor fund financial statements, financial statements. budgetary comparison schedules-nonmajor governmental funds, and the schedule of expenditures of federal awards and state projects have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Management's Discussion and Analysis and the other Post Employment Benefits Schedule of funding progress are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on them.

The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

St. Lucie County's (the "County") discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the County's financial activity, (c) identify changes in the County's financial position, (d) identify any material deviations from the financial plan, and (e) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current years activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page v) and the County's financial statements (beginning on page 15).

HIGHLIGHTS

Financial Highlights

- The assets of the County exceeded its liabilities at September 30, 2011 by \$691.8 million (net assets). Of this amount, \$110.7 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net assets decreased by \$10.3 million. The decrease is mainly attributable to a decrease in grant revenues.
- At September 30, 2011, the County's governmental funds reported combined ending fund balance of \$216.9 million, a decrease of \$11.6 million in comparison with the prior year.
- The County had a \$0.2 million decrease in unassigned fund balance in the general fund. The key factors in this decrease were due to the decrease in fund balance as a whole and various assigned fund balances made by the County Administrator.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements. The government-wide financial statements (on pages 15, 16, and 17) provide information about the activities of the County as a whole and present a longer-term view of the County's finances. Fund financial statements begin on page 18. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the County's operations in more detail by providing information about the County's most significant funds. The remaining statements provide financial information about activities for which the County acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the County as a Whole

Our analysis of the County as a whole begins on page 15. The Statement of Net Assets and the Statement of Activities report information about the County as a whole and about its activities in a way that helps to assess the county's financial health. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used in most private-sector companies. All of the current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the County's *net assets* and the changes in net assets. You can think of the County's net assets – the difference between assets and liabilities – as one way to measure the County's financial health, or *financial position*. Over time, *increases or decreases* in the County's net assets, is one indicator of whether its

financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the County's property tax base and the condition of the County's roads, to assess the *overall health* of the County.

In the Statement of Net Assets and the Statement of Activities, we divide the County into two kinds of activities:

- Governmental activities Most of the County's basic services are reported here, including the public safety, public works, parks and recreation, and general administration. Taxes, franchise taxes, charges for services, grants, and interest earnings finance most of these activities.
- Business-type activities The County charges a fee to customers to help it cover all or most of the cost of certain services it provides. The County's Bailing & Recycling, North County Utilities, South Hutchinson Utilities, Golf Course, and Building Code operations are reported here.

Fund Financial Statements

Our analysis of the County's major funds begins on page 18. The fund financial statements provide detailed information about the most significant funds – not the County as a whole. Some funds are required to be established by State law and by bond covenants. However, the County establishes many other funds to help it control and manage money and to show that it is meeting legal responsibilities for using certain taxes, grants, and other monies such as fine and forfeitures.

Governmental Funds

Most of the County's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliations presented on page 20 and page 24.

The County maintains fifty-three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Transportation Trust Fund, Fine and Forfeiture Fund, SHI Special Assessment Bond Fund, and North Lennard Road Bonds I&S Fund, all of which are considered to be major funds. Data from the other forty-eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each nonmajor governmental fund is provided in the form of combining statements and begins on page 94.

Annual budgets are adopted for all governmental funds. The budgetary comparison statements have been provided for all governmental funds to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 18-28 of this report.

Proprietary Funds

When the County charges customers for the services it provides – whether to outside customers or to other units of the County – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the County's enterprise funds (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

The basic proprietary fund financial statements can be found on pages 30-37 of this report.

Fiduciary Funds

The County holds deposits for various individuals and businesses for contract performance that are then returned when the contract has been completed. The County also holds deposits for special assessment debt which the County is not obligated to repay. These deposits are accounted for in an Agency fund, where assets equal liabilities. The basic fiduciary fund financial statement can be found on page 38 of this report.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 39 through 89 of this report.

Required Supplementary information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information highlighting the schedule of funding progress for other postemployment benefits. The required supplementary information can be found on page 91 of this report.

THE COUNTY AS A WHOLE

Financial Analysis of the County as a Whole

The County's combined net assets decreased \$10.3 million from \$702.1 million to \$691.8 million or 1.5%. Looking at the net assets and net revenues of the governmental and business-type activities, an increase occurred in the governmental-type activities and a decrease occurred in the business-type activities. Our analysis focuses on net assets (Table 1) and changes in net assets (Table 2) of the County's governmental and business-type activities.

GOVERNMENT-WIDE STATEMENTS

Statement of Net Assets

The largest portion (68.8%) of the County's net assets reflects its investment in capital assets (i.e. land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets (15.2%) represents resources restricted for purposes other than operations such as debt service and legally restricted purposes. The remaining balance of unrestricted net assets of \$110.7 million may be used to meet the County's ongoing obligations to citizen and creditors. The total change in net assets was a \$10.3 million decrease. More detailed information concerning the County's net assets is presented on page 15 of the government-wide financial statements.

The following table shows the revenue and expenses of the total primary government.

Overall the total expenses exceeded revenues by \$10.3 million. Program revenues are specific to the functions of the primary government such as fees and charges for services, grants and capital contributions. The expenses of the primary government were \$244.6 with public safety operations' comprising the largest expense category at 33.5% or \$82 million. Public safety activities include law enforcement, correction/detention facility, and emergency management. Our analysis below separately considers the operations of governmental and business-type activities.

The County's total primary government revenues have decreased by \$17.1 million, while the total expenses have increased by \$4.7 million from 2010. The total revenues decrease is primarily due to decreases in operating and capital grants. The total expenses increase is primarily due to the accrued closure and long-term care costs for the Bailing and Recycling Facility in FY 2011.

Governmental Activities

Governmental activities revenues exceeded expenses and transfers by \$7.3 million. Total revenues decreased approximately \$10.9 million from the previous year. This was mainly due to decreases in operating and capital grants and contributions. Total expenses increased \$3 million from the previous year. The increase is mainly due to increases in Court related expenditures. For FY 2011, the governmental activities had net transfers in of \$8.7 million, comparing to net transfers out of \$1.1 million in FY 2010. The difference resulted from the reclassification of the Sports Complex Fund from a business-type activity to a governmental activity at the beginning of FY 2011.

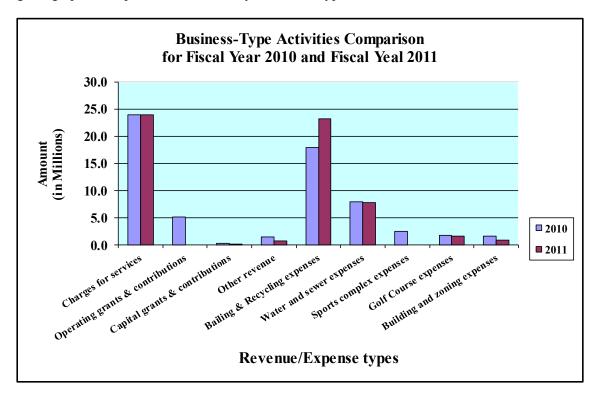

The following is a graphic illustration of the comparison for governmental activities revenues and expenses.

Business-type Activities

Revenues of the County's business-type activities (see Table 2) decreased by 20% (a decrease of \$6.2 million) and expenses increased by 5.3% (an increase of \$1.7 million). The decrease in revenues is mainly due to decreases in operating grants related to hurricane reimbursements received in FY 2010. The increase in expenses was primarily due to an increase in the landfill estimated closure and long-term care costs.

Following is a graphic comparison of the County's business-type activities.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As the County completed the fiscal year, its governmental funds (as presented in the balance sheet on pages 18-19) reported a combined fund balance of \$216.9 million, which is a decrease of \$11.7 million over the prior year of \$228.6 million. The fund balance section is presented in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. As of September 30, 2011, the County had fund balance in 1) a nonspendable category for inventory, prepaid items, advance to other funds, and assets held for resale (\$7.3 million), 2) a restricted category for resources that are either restricted externally by creditors, grantors, contributors, or law or regulations of other government or imposed by law through constitutional provisions or enabling legislation (\$99.2 million), 3) a committed category for constraints imposed by formal action of the County Commissioners (\$42.4 million), 4) an assigned category for constraints by the County's intent to use the balance for specific purposes (\$68.4 million), and 5) an unassigned category is available for spending at the

County's discretion. As of September 30, 2011, the County has a negative of \$0.3 million in the unassigned category. This is caused by reimbursable grant revenues not being received within the accrual period, which is 45 days after the fiscal period ending date.

The **General Fund** is the chief operating fund of the County. At the end of the fiscal year, the total fund balance was \$91.1 million, while the unassigned fund balance was \$0. This is due to the designation of funding for projected budget deficits and other Board committed and assigned uses. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 0% of total general fund expenditures, while total fund balance represents 68.3% of that same amount.

The fund balance of the County's general fund decreased by \$2.7 million from the prior fiscal year. The multiple factors affecting this net reduction are as follows:

- Property tax revenues decreased by \$3.2 million as a result of the decrease in property values.
- Interest revenues decreased by \$1.5 million as a result of a historically low interest rate environment.
- Other financing sources (uses) such as transfers in and transfers out increased by \$11.7 million. This is mainly caused by the reimbursements of the insurance fund surplus and a one-time budgeted transfer in from County's capital project fund for excess unspent project funding.
- Total expenditures decreased by \$3 million as a result of the continuation of multiple cost cutting measures in FY 2011.

The **Transportation Trust Fund** has a total fund balance of \$10.4 million, of which, \$0.3 million is nonspendable and \$10.1 million is restricted. The increase of the total fund balance from the prior year is mainly due to a decrease in transfers out.

The **Fine and Forfeiture Fund** has a total fund balance of \$14.3 million, of which, \$14 million is restricted for the public safety function and \$0.3 million is restricted for court related function. The increase of the total fund balance from the prior year is due to an increase in property tax revenues and a decrease in transfers out.

The **SHI Special Assessment Bond Fund** has a total fund balance of \$3.1 million, all of which is restricted for debt service.

The **N. Lennard Road Bonds I&S Fund** is to account for debt service assessment revenues pledged to pay the N. Lennard Road Phase I, II, and III special assessment debts. It has a total fund balance of \$0.6 million, all of which is restricted for debt service.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The total net assets of the **Bailing & Recycling Facility Fund** at the end of the fiscal year amounted to \$25.7 million, while the unrestricted net assets were a negative \$1 million. Compared to the prior year in the same category, the net assets had a decrease of \$8.8 million from the prior year while the unrestricted net assets had a decrease of \$7.4 million from prior year. This is mainly due to increases in the landfill estimated closure and long-term care costs.

The total net assets of the **Golf Course Fund** at the end of the fiscal year amounted to a negative \$3.8 million. Compared to the prior year, the net assets had a decrease of \$0.5 million. The golf course fund continues experiencing revenue shortfall due to the poor economic condition.

The total net asset of the **North County Utilities Fund** at the end of the fiscal year amounted to \$22.2 million, while the unrestricted net assets amounted to \$2.6 million. In comparison to the prior year, the total net assets had an increase of \$0.2 million while the unrestricted net assets had an increase of \$0.3 million from the prior year. This is mainly due to increases in operating revenues.

Other factors concerning the finances of these funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

Variance between Original Budget and Final Amended Budget

The General Fund includes activities of the Board of County Commissioners as well as all of the Constitutional Officers. After the original budget is approved, it may be revised for a variety of reasons such as unforeseen circumstances, corrections of errors, new bond or loan proceeds, new grant awards, and other revenues. During fiscal year 2011, the budget for the general fund was amended from its original budget of \$215.7 million to its final amended budget of \$235.6 million.

The original budget for revenue and other financing sources was \$140.1 million. Throughout the year, this was amended to a final budget of \$148.9 million. Overall, this represented an \$8.8 million increase in the budgeted revenue for the general fund. This was primarily due to an increase in intergovernmental revenue during the year. The County received new grant awards from other governmental entities during the year, and the budget was amended to reflect the grant revenue.

The budget for expenditures and financing uses was originally adopted at \$157.3 million. The final amended budget was \$165.6 million, which was an \$8.3 million increase. This was primarily due to an increase in the General Government and Capital Outlay budgets. These budgets were increased as the result of grants received by the County. There was also a shift between the Economic Environment and the Human Services budgets due to the reclassification of several housing grants.

The final amended budget for the General Fund's beginning fund balance increased by \$11.2 million compared to the original budget.

Variance Between Final Amended Budget and Actual

The actual revenue and other financing sources came in under the final amended budget by \$15.5 million due to a variance in intergovernmental revenue. Timing of grant revenues caused the variance in intergovernmental revenue. Many of the grants the County receives are paid on a reimbursement basis. Because not all of the grant projects had been completed by year-end, the associated revenue was not received during the fiscal year. It is anticipated that these grant revenues will be received in future periods.

The actual expenditures and other financing uses came in under the final amended budget by \$29.6 million. General government expenditures came in \$7.1 million below the final amended budget. This was caused by excess fees from the constitutional officers, as well as variances in operating budgets. Public safety came in \$3.4

million less than the final amended budget primarily due to the actual expenditures for inmate medical care coming in \$3.2 million under budget. This was the result of the County and the medical care contractor reaching an agreement with the hospital on the rates that are paid for inmates. Economic environment came in \$10.6 million less than the final amended budget primarily due to the timing of grant projects. The County has some large housing grants that were not spent by the end of the fiscal year. Capital Outlay expenditures were \$4 million less than the final amended budget primarily due to the timing of capital projects.

Transfers out came in under the final amended budget by \$0.1 million, while transfers in came in over the final amended budget by \$0.7 million. The actual net change in fund balance came in at a negative of \$2.7 million. The reduction of fund balance as a result of County operations would have been greater except that the County maintained \$15.7 million in non-recurring General Fund revenues that have been set aside for specific purposes.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2011, the County had \$618.4 million invested in a broad range of capital assets, including land, law enforcement and public works equipment, buildings, park facilities, roads, bridges, and stormwater drainage structures. This amount represents a net increase (including additions and deductions) of \$2.6 million, or 0.4%, over prior year. The following table illustrates the changes in capital assets. See pages 59 through 61 in the notes to financial statements for detailed changes in capital assets.

Governmental activities had major increases in both land and buildings and improvements categories as a result of the transfers of capital assets from Sports Complex Fund. The Sports Complex Fund was reclassified from an enterprise fund to a special revenue fund at the beginning of FY 2011.

Business-type activities had major decreases in both land and buildings and improvements categories due to the same reason stated above.

Debt

On September 30, 2011, the County had \$162.1 million in bonds, notes and capital leases outstanding versus \$170.2 million on September 30, 2010 – a decrease of 4.8% – as shown in Table 4:

The decrease in debt is a net result of scheduled principal payments on long-term debt and the issuance of Tourist Development Tax Revenue Bond, Series 2011A and Series 2011B. Other obligations of the County include accrued vacation pay and sick leave and County landfill long-term care liability.

Additional information on the County's long-term debt can be found on pages 68 through 76 in the notes to financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The County's elected officials considered many factors when setting the fiscal year 2012 budget, tax rates, and fees. One of those factors is the economy.

St. Lucie County's local economy consists of services, tourism, agriculture, construction and light manufacturing industries. While St. Lucie County is poised to take advantage of its location and climate, the growth in employment opportunities has been significantly impacted by the regional and national economies. Single family home construction in the unincorporated area decreased from 908 new homes in 2004 to 76 new homes in 2011. In comparison to 2010, the 2011 figure reflects a 20% increase. Total existing home sales have decreased from 5,957 in 2010 to 5,600 in 2011. The median price for an existing single-family home in the area was \$97,010 for December 2011 while the State median price was \$120,000. The preliminary unemployment rate was 13% for 2011 while the State rate was 10.6%.

These indicators were taken into account when adopting the General Fund budget for fiscal year 2012. The budget reflects the efforts of the Board of County Commissioners and staff to balance the budget within a declining market and property tax base without significantly impacting the current service level. Many creative cost cutting measures including shifting the tax rate from stormwater to the general fund and reducing health insurance premiums charged by the County's internal service fund were implemented to reduce the cost of operation with the least effect on available services. Amounts available for appropriation in the Board of County Commissioners General Fund budget are \$149.0 million, a decrease of 5.7% from the original fiscal year 2011 budget of \$158.1 million and a decrease of 15.7% from the final fiscal year 2011 budget of \$176.7 million.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended September 30, 2011

| Net change in fund balances - total governmental funds Amount reported for governmental activities in the statement of activities are different because: | \$ | (11,608,729) |
|---|---|--------------|
| Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. | | |
| Expenditures for capital assets Less current year depreciation | \$ 24,183,348 (18,322,707) | 5,860,641 |
| Capital asset contributions from private sources | | 52,209 |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. Loss on sale of capital assets | | (9,292) |
| Debt proceeds provide current financial resources to governmental funds, but debt increases long-term liabilities in the statement of net assets. Debt proceeds Bond issuance costs and deferred amount on refunding | \$ (7,685,000) 268,625 | (7,416,375) |
| Repayment of bond principal, notes principal, and capital lease principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. Bond principal payment Notes payable principal payment Capital lease principal payment | \$ 7,048,268 7,858,994 504,189 | 15,411,451 |
| Some expenses reported in the statement of activities do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds. Change in accrued interest expense Amortization of issuance costs, bond premium, and deferred amount Change in arbitrage liabilities Change in compensated absences Change in other post employment benefits | \$ 171,491 (71,323) 32 13,913 (3,069,560) | (2,955,447) |
| Governmental funds report non-exchange transactions when the applicable eligibility requirements have been met and resources are available. However, in the statement of activities, non-exchange transactions are recognized when the eligibility requirements are met. | | (865,830) |
| Some revenues (special assessments) reported in the governmental funds have been recognized as revenues in the prior fiscal year in the statement of activities. | | (751,227) |
| Changes in inventory are reflected as a deduction in fund balance; however, on the statement of activities, it is recorded as an expense. | | (36,161) |
| Internal service funds are used by management to charge the costs of insurance services to individual funds. The change in net assets is reported with governmental activities on the statement of activities. | | 380,510 |
| A reclassification of an enterprise fund to a special revenue fund resulted a transfer out at the enterprise fund side and no transfer in at the governmental fund side. | | 9,232,055 |
| Change in net assets of governmental activities | \$ | 7,293,805 |

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the County have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards that which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

A. Reporting Entity

St. Lucie County, Florida (The "County"), is a non-charter government pursuant to Article VIII, Section (1)(f), of the Constitution of the State of Florida. The County financial statements contained herein include and combine the operations of the Board of County Commissioners (the "Board") and the Clerk of the Circuit Court, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector (the "Constitutional Officers").

The Clerk of the Circuit Court serves as ex-officio Clerk of the Board in accordance with Article VIII, Section (1)(d), of the Constitution of the State of Florida, and Section 125.17, Florida Statutes.

The reporting entity's financial statements should allow users to distinguish between the primary government and its component units. However, some component units, because of the closeness of their relationships with the County, should be blended as though they are part of the County. Otherwise, most component units should be discretely presented. As required by generally accepted accounting principles, the financial reporting entity consists of (1) the primary government (the County), (2) organizations for which the County is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The County is financially accountable if it appoints a voting majority of the organization's governing body and (a) it is able to impose its will on that organization or (b) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County.

Additionally, the County is required to consider other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the County's financial statement to be misleading or incomplete. Accounting principles generally accepted in the United States require that the financial statements allow the user to clearly distinguish between the primary government and its components. A component unit is a legally separated organization for which the County is financially accountable. Because of the closeness of their relationships with the primary government, the following component units are blended as though they are part of the primary government.

Blended Component Units

The County serves as ex-officio governing board and maintains accounting records for five dependent entities, as follows:

- 1. St. Lucie County Mosquito Control District (Created by Chapter 29502, Laws of Florida, Acts of 1953)
- 2. Erosion Control District (Created by Chapter 67-2001, Laws of Florida)
- 3. St. Lucie County Water and Sewer District (Created by Section 153.53, Florida Statutes)
- 4. St. Lucie County Housing Finance Authority (Created by Section 159.601, Florida Statutes)
- 5. Central Florida Foreign-Trade Zone, Inc. (the "Trade Zone") (Created by Sections 288.35 through 288.38, Florida Statutes)

The financial activity of these dependent entities is blended in with the financial activity of the County's general fund, special revenue funds and enterprise funds. These entities do not issue separate financial statements.

Other Entities

St. Lucie, Indian River, Martin and Okeechobee counties jointly fund the Office of the Medical Examiner, 19th Judicial District. The Governor of the State of Florida appoints the Medical Examiner. The County's only financial responsibility for the Medical Examiner is to fund its required percentage of the operating costs of that office out of the General Fund. The other counties participate in funding the Medical Examiner's office in the same manner. Indian River State College maintains the accounting records for the Medical Examiner's office.

B. Measurement Focus and Bases of Accounting

The basic financial statements of the County are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

1. Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting. This means that revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement No. 33, <u>Accounting and Financial Reporting for Nonexchange Transactions</u> as amended by GASB Statement No. 36, <u>Recipient Reporting of Certain Shared Nonexchange Revenues</u> (the County may act as either provider or recipient), the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and deferred revenues by the recipient.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Business-type activities distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The government-wide financial statements do not include the fiduciary funds of the County.

2. Fund Financial Statements

The underlying accounting system of the County is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures (or expenses), as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the constraints placed by the revenue sources.

Fund financial statements for the primary government's governmental and proprietary funds display information about major funds individually and nonmajor funds in the aggregate. The fiduciary statement includes financial information for the agency fund, which represents assets held by the County in a custodial capacity for other individuals or governments.

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter to pay current period liabilities.

For this purpose, the County considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Franchise fees, licenses, sales taxes, gas taxes, operating and capital grants, and interest associated with the current fiscal period are all considered to be accrual items and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when the County receives cash.

Under the current financial resources measurement focus (modified accrual basis), only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

The non-current portion of long-term receivables (special assessments) due to governmental funds are reported on their balance sheets because of their spending measurement focus. The non-current portions of other long-term receivables are offset by fund balance reserve accounts. Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are not recorded as fund assets; they are recorded as expenditures in the fund financial statements. The proceeds of long-term debt are recorded as an "other financing source". Debt service, compensated absences, and claims and judgments expenditures are recorded when the payment is made.

The GASB Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The County has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This category includes amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

Restricted Fund Balance – This category includes amounts that have externally imposed restrictions or restrictions imposed by laws.

Committed Fund Balance – This category usually consists of contractual obligations which require a formal approval from the Board of County Commissioners. This type of fund balance can only be removed by the Board of County Commissioners through the same approval process. This category also includes an emergency reserve which is established by the Board of County Commissioners. The amount can only be used for natural and manmade disasters.

Assigned Fund Balance – This category usually consists of the Board of County Commissioners' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the County Administrator.

Reserve Policy – The County's financial policy requires the Board of County Commissioners to establish an emergency reserve in the general fund. The amount should be 5% of the total operating budget excluding funds that have a minimum of 10% of the fund's operating budget or \$2,000,000 in reserves, whichever is greater. The amount can only be utilized for natural and manmade disasters. The amount is presented as a committed fund balance of the general fund.

The County Administrator established a budget deficit reserve policy during the fiscal year 2010. The intent of the reserve is to assign the needed amount from unassigned fund balance for future years budget purposes. The amount may be adjusted by the County Administrator and can only be utilized for budget balancing needs. The amount is presented as an assigned fund balance of the general fund.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

For special revenue funds, when restricted and committed are combined in a special revenue fund, expenditures are paid first from committed fund balance, as appropriate, then restricted fund balances.

Proprietary Funds

The County's enterprise funds and internal service fund are proprietary funds and are presented using the economic resources measurement focus (accrual basis of accounting). Revenues are recognized when they are earned and expenses are recognized when the related goods or services

are delivered. All current and non-current assets and liabilities are included on the Statement of Net Assets. Revenues represent increases and expenses represent decreases in total net assets on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

Proprietary fund operating revenues, such as charges for services, and operating expenses, such as salaries, supplies, and contracted services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, taxes, and investment earnings, and non-operating expenses, such as interest expense, loss on sale of assets, and arbitrage expense, result from nonexchange transactions or ancillary activities. Amounts paid to acquire capital assets are recorded in the fund as assets. The proceeds of long-term debt are recorded as a fund liability. Amounts paid to reduce long-term indebtedness are reported as a reduction of the related liabilities.

Fiduciary Fund

The agency fund reports only assets and liabilities; therefore, it does not have a measurement focus. However, it uses the accrual basis of accounting to recognize receivables and payables.

C. Bases of Presentation

GASB Statement 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category and the governmental and proprietary combined) for the determination of major funds. The County has elected to use GASB 34 minimum criteria for major fund determination.

The nonmajor funds are combined in a column titled, Other Governmental Funds. The details of the nonmajor funds are listed in the combining section under supplemental information.

1. Governmental Major Funds

<u>General Fund</u> – The General Fund is the general operating fund of the County. It is used to account for all financial activity not accounted for in another fund.

<u>Transportation Trust Fund</u> – The Transportation Trust Fund accounts for the operations of the road and bridge and engineering departments. Financing is provided primarily by gas taxes. The Transportation Trust Fund did not meet the GASB 34 minimum criteria for major fund determination for FY 2011. However, the County elected this fund to be a major fund to enhance consistency from prior fiscal year.

<u>Fine and Forfeiture Fund</u> – The Fine and Forfeiture Fund accounts for law enforcement and court-related projects that are funded by ad valorem taxes, fines, filing fees, and proceeds from confiscated property.

<u>SHI Special Assessment Bond Fund</u> – The SHI Special Assessment Bond Fund accounts for debt service assessment revenues pledged to pay the South Hutchinson Island 1998 and 1998A special assessment debts.

N. Lennard Road Bonds I & S Fund – The N. Lennard Road Bonds I & S Fund accounts for debt service assessment revenues pledged to pay the N. Lennard Road Phase 1, 2 & 3 special assessment debts.

2. Proprietary Major Funds

<u>Bailing & Recycling Facility Fund</u> – The Bailing & Recycling Facility Fund provides funding to operate the County's landfills, a recycling division and the hazardous waste division. In addition, estimated costs of closure and long-term care of the landfill operations are included in this fund.

<u>Golf Course Fund</u> – The Golf Course Fund accounts for the operation of a high quality, low cost, service oriented public golf course for the County.

North County Utilities Fund – The North County Utilities Fund accounts for the operation of a water and sewer facility for certain residents in various sections of the County.

3. Other Fund Types

<u>Internal Service Fund</u> – The Internal Service Fund accounts for the payment of countywide health and property and casualty liability insurances. Funding is provided by user charges to the various departments of the Board and Constitutional Officers (except the Sheriff).

<u>Fiduciary Funds</u> – The Agency Funds are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals, such as Constitutional Officer investments, impact fees, public law library funds, certain sales tax revenues, various Municipal Service Benefit Units (MSBU), cash bonds, traffic fines, motor vehicle fees, ad valorem taxes, delinquent taxes, and process serving within the County.

4. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires non-current governmental assets (such as land, buildings, and improvements) and non-current governmental liabilities (such as general obligation bonds and capital leases) to be reported in the governmental activities column in the government-wide Statement of Net Assets.

D. Assets, Liabilities, and Net Assets or Equity

1. Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds. Earnings from the pooled investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pool is managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts. Therefore, all balances representing participants' equity in the investment pool are classified as cash and investments for financial statement purposes. For the statement of cash flows, we consider cash and investments to include the Local Government Surplus

Funds Trust Fund (Florida State Board of Administration) and the Florida Local Government Investment Trust Fund.

In accordance with Sections 125.31 and 218.415, Florida Statutes, and the County's investment policy, the County is authorized to invest in negotiable direct obligations of, or obligations the principal and interest of which are unconditionally guaranteed by, the United States Government, the State Investment Pool, Florida Local Government Investment Trust, nonnegotiable interest-bearing time certificates of deposit, money market accounts, corporate obligations issued by financial institutions that participate in the FDIC's Temporary Liquidity Guarantee Program, obligations or notes of U.S. corporations with at least two of the following three minimum ratings: A- by Standard and Poor's, A3 by Moody's, or A- by Fitch, and repurchase agreements. All investments are reported at fair value.

2. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Long term lending/borrowing arrangements between funds are classified as advances. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

3. Inventories

Inventories of supplies in the special revenue funds are recognized as expenditures at the time of purchase. Inventories on hand at September 30 are recorded at cost on a first in-first out or weighted average basis. In addition, a corresponding entry is made for a reservation of fund balance. Inventories in the proprietary fund types are recorded at cost using the weighted average method and recognized as expenses as they are consumed.

4. Restricted Assets

Certain assets of the County are classified as restricted assets on the Statement of Net Assets because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors, grantors, contributors, or laws or regulations of other governments.

5. Capital Assets

Capital assets, which include land, buildings, improvements, equipment and construction in progress, are reported in the applicable governmental or business-type activities column.

The County defines capital assets as assets with an initial, individual cost of \$1,000 or more and an estimated useful life in excess of one year. The valuation basis for all assets is historical cost.

Donated capital assets are recorded at estimated fair market value at the date of the donation. The costs of normal maintenance and repairs that do not add to the value of the asset, or materially extend its useful life, are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of assets constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 7-39 years; improvements, 5-50 years; and equipment, 2-10 years.

The Board holds legal title to the capital assets (except the equipment of the Sheriff) used in the operation of the Board, Clerk of the Circuit Court, Property Appraiser, Sheriff, Supervisor of Elections and Tax Collector, and is accountable for them under Florida Law. The Sheriff holds legal title to the equipment used in its operations and is accountable for them under Florida law.

6. Unamortized Bond Issuance Costs

Bond issuance costs and legal fees associated with the issuance of revenue bonds are amortized over the life of the bonds using the effective interest method of accounting.

7. Unamortized Bond Discounts and Premiums

Proprietary fund revenue bond discounts and premiums are presented on the government-wide and fund financial statements. The costs are amortized over the life of the bonds using the effective interest method of accounting. For financial reporting, the unamortized bond discounts and premiums are netted against the applicable long-term debt. The governmental fund bond discounts and premiums are presented on the government-wide financial statements. The costs are amortized over the life of the bonds using the effective interest method of accounting. For financial reporting, the unamortized bond discounts and premiums are netted against the applicable long-term debt.

8. Deferred Costs of Refunding

Deferred costs of refunding associated with the issuance of proprietary fund revenue bonds are presented on the government-wide and fund financial statements and amortized over the life of the bonds using the effective interest method of accounting. For financial reporting, the deferred costs of refunding are netted against the applicable long-term debt. Deferred cost of refunding associated with the issuance of governmental activities bonds are presented on the government-wide financial statements and amortized over the life of the bonds using the effective interest method of accounting. For financial reporting, the deferred costs of refunding are netted against the applicable long-term debt.

9. Unearned Revenues

Unearned revenues reported in government-wide financial statements will be recognized as revenue in the fiscal year they are earned in accordance with the accrual basis of accounting.

10. Accrued Compensated Absences

The County accrues unused portions of vacation pay and comp time in the period the fund liability is incurred. As permitted by Governmental Accounting Standards Board Statement No. 16, the vesting method is used to accrue sick leave liability. The liability is based on the sick leave accumulated at year-end by those employees who are currently eligible to receive termination payments as well as other employees who are expected to become eligible to receive such payments.

Even though the County has appropriated, accumulated and earmarked expendable available fund resources for these amounts, the portion not normally expected to be liquidated with expendable available financial resources is not reported as a fund liability (in accordance with Interpretation No. 6 of the

Governmental Accounting Standards Board – Recognition and Measurement of Certain Liabilities and Expenditures) in governmental fund financial statements. The accrued compensated absence liabilities payable from available resources are recognized as expenditures in governmental funds if they have matured.

11. Obligation for Bond Arbitrage Rebate

Pursuant to Section 148(f) of the U.S. Internal Revenue Code, the County must rebate to the United States Government the excess of interest earned from the investment of certain debt proceeds and pledged revenues over the yield rate of the applicable debt. This approach treats the rebate as an expense when it is actually payable to the federal government

12. Landfill Closure Costs

Under the terms of current state and federal regulations, the Bailing & Recycling Facility is required to place a final cover on closed landfill areas, and to perform certain monitoring and maintenance functions for a period of up to 30 years after closure. The Bailing & Recycling Facility recognizes these costs of closure and post-closure maintenance over the active life of each landfill area, based on landfill capacity used during the period. Required obligations for closure and post-closure costs are recognized in the Bailing & Recycling Facility Fund.

13. Indirect Costs

The County utilizes a pre-determined automatic indirect costs distribution formula to distribute its annual indirect costs. Certain indirect costs are included in the program expense reported for individual functions and activities.

E. Budgets

Pursuant to Section 129.03, Florida Statutes, budgets are prepared and adopted for the Board after public hearing for the governmental funds, in accordance with Section 200.65, Florida Statutes. The Constitutional Officers submit, at various times, to the Board and to certain divisions within the Department of Revenue, State of Florida, a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them, as set forth in Chapter 129 Florida Statutes. The Department of Revenue, State of Florida, has the final authority on the operating budgets for the Tax Collector and Property Appraiser included in the General Fund. The Florida Court Clerk Operations Corporation has the final authority on the court related operating budget for the Clerk of the Circuit Court included in the general fund.

The County utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. All budgeted appropriations lapse at year end. Formal budgets are adopted for the general, special revenue, debt service and capital projects funds. The legal level of budgetary control is at the fund level. As a result, deficits in the budget columns of the accompanying financial statements may occur in individual expenditure line items.

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The governmental fund balance sheet includes reconciliation between *fund balance-total* governmental funds and net assets-governmental activities as reported in the government-wide statement of net assets.

"Total fund balances" of the County's governmental funds (\$216,944,955) differs from "net assets" of governmental activities (\$631,909,307) reported in the statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheet. The effect of the differences is illustrated below

Capital related items

When capital assets (land, building and improvements, equipment, and construction in progress) that are to be used in the governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets included those capital assets among the assets of the County as a whole.

| Cost of capital assets | \$ 746,956,997 |
|--------------------------------|-----------------------|
| Less: Accumulated depreciation | (205,869,805) |
| Total | <u>\$ 541,087,192</u> |

Other post employment and termination benefits

Accrued other post employment and termination benefits are not financial uses, and therefore, are not reported in the funds.

| Other post employment benefits | \$ | (19,020,310) |
|--------------------------------|----|--------------|
|--------------------------------|----|--------------|

Long-term debt transactions

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and accordingly are not reported in the funds. Balances at September 30, 2011 were:

| Bonds payable | \$ (99,050,000) |
|--------------------------|-------------------------|
| Notes payable | (29,896,258) |
| Special assessment bonds | (12,217,819) |
| Capital lease payable | (1,452,339) |
| Compensated absences | (13,706,977) |
| Total | <u>\$ (156,323,393)</u> |

Deferred amount on refunding

The deferred amount on refunding of bonds, net of accumulated amortization, is reflected in the notes and bonds payable in the statement of net assets.

| Deferred amount on refunding | \$ 1,290,534 |
|------------------------------|-----------------|
| Less: Amortization expense | (85,951) |
| Total | \$ 1,204,583 |

Bond premiums

Certain premiums are reflected net of accumulated amortization in the notes and bonds payable in the statement of net assets.

| Bond premiums | \$ (1,432,524) |
|----------------------------|-------------------|
| Less: Amortization expense | 142,723 |
| Total | \$ (1,289,801) |

Bond issuance costs

Bond issuance costs net of accumulated amortization is reflected in the statement of net assets as a non-current asset.

| Bond issuance costs | \$ 1,588,915 |
|----------------------------|-----------------|
| Less: Amortization expense | (128,095) |
| Total | \$ 1,460,820 |

Accrued interest

Accrued interest is not a current financial use, therefore, is not reported in governmental funds.

| Bonds interest payable | \$ (331,796) |
|--------------------------------|-----------------|
| Notes interest payable | (308,000) |
| Capital lease interest payable | (1,672) |
| Total | \$ (641,468) |

Unearned revenues

Unearned revenues in the statement of net assets differ from the amount reported in the governmental funds due to special assessment receivables. Governmental fund financial statements report unearned revenues or revenues which are measurable but not available as deferred revenues. However, unearned revenues in governmental funds are susceptible to full accrual on the government-wide financial statements.

| J | Jnearned | revenues | <u>\$</u> | 14,351 | <u>,36</u> | 1 |

Accrued grant revenues

Some grant revenues are not recognized in the current period because the resources are not available; therefore, these revenues are not reported in the governmental funds financial statements.

Internal service fund

Management uses the internal service fund to charge the costs of insurance activities to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets because they serve the governmental activities of the County.

Internal service fund net assets

\$ 31,323,858

Elimination of interfund receivable/payable

Interfund receivables and payables in the amount of \$4,953,903 between governmental activities have been eliminated for the statement of net assets.

B. Explanation of Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The "net change in fund balances" for governmental funds (a decrease of \$11,608,729) differs from the "change in net assets" for governmental activities (an increase of \$7,293,805) reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Capital related items

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balances decrease by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

| Capital outlay | \$ 24,183,348 |
|----------------------|------------------|
| Depreciation expense | (18,322,707) |
| Difference | \$ 5,860,641 |

In the statement of activities, the gain and loss on the sale and disposal of capital assets are reported. However, in the governmental funds, only the proceeds from the sale increase financial resources.

Loss on disposal of capital assets \$ (9,292)

In the statement of activities, the capital assets contributions are reported as program revenues. However, in the governmental funds, this type of activity is not reported because of the current financial resources focus.

Capital asset contributions <u>\$ 52,209</u>

Long-term debt transactions

In the statement of net assets, debt proceeds increase long-term liabilities. However, in the governmental funds, debt proceeds are treated as other financing sources since they provide current financial resources to governmental funds.

| Issuance of long-term debt | \$ (3,000,000) |
|----------------------------|-------------------|
| Issuance of refunding debt | (4,685,000) |
| Total | \$ (7,685,000) |

Governmental funds report bond issuance costs and deferred amount on refunding as expenditures. However, in the statement of net assets, bond issuance costs are presented as a non-current asset and deferred amount on refunding is being netted against the outstanding bonds payable. The amounts are being amortized over the life of the bonds.

| Bond issuance costs | \$ | 168,856 |
|------------------------------|-----------|---------|
| Deferred amount on refunding | | 99,769 |
| Total | <u>\$</u> | 268,625 |

Repayments of bond principal, notes payable principal, and capital lease principal are reported as expenditures in the governmental funds and, thus, have the effect of reducing fund balance because current financial resources have been used. However, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.

| Refunded principal bonds redeemed | \$ | 4,620,000 |
|--------------------------------------|----|------------|
| Bond principal payment made | • | 7,048,268 |
| Notes payable principal payment made | | 3,238,994 |
| Capital lease principal payment made | | 504,189 |
| Total | \$ | 15,411,451 |

Some expenses reported in the statement of activities do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds.

| Net change in compensated absences | \$ 13,913 |
|--|-------------------|
| Net change in accrued interest expense | 171,491 |
| Arbitrage liabilities | 32 |
| Amortization of bond issuance costs | (128,095) |
| Amortization of bond premiums | 142,723 |
| Amortization of deferred amount on refunding | (85,951) |
| Net change in other post employment benefits | (3,069,560) |
| Net adjustment | \$ (2,955,447) |

Accrued grant revenues

Some grant revenues are not recognized in the current period because the resources are not available; therefore, these revenues are not reported in the fund financial statements. The amount listed below is the net of the prior and current fiscal years and is included in the statement of activities.

| Net change in accrued grant revenu | ies \$ | (865,830) |
|---------------------------------------|--------|-----------|
| 1 10t change in accided grant ic vent | 1C3 U | 1005,0501 |

Assessment revenues

Governmental funds report initial special assessments as unearned revenues. Revenues are recognized when they are collected. However, in the statement of activities, initial special assessments are set up as receivables and recognized as program revenues.

| Assessment revenues | \$ (| (751 <u>,227)</u> |) |
|---------------------|------|-------------------|---|
| | | | |

Change in inventories

Changes in inventory are reflected as a reduction in the governmental funds balance sheet. However, in the statement of activities, it is recorded as an expense.

| Change in inventories | \$ (36,161) |
|-----------------------|----------------|
| | |

<u>Internal service fund change in net assets</u>

The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets because they primarily serve governmental activities of the County. The change in net assets is reported with governmental activities on the statement of activities.

| Internal service fund change in net assets | <u>\$</u> | 380,510 |
|--|-----------|---------|
|--|-----------|---------|

Reclassification and eliminations

Transfers in and transfers out in the amount of \$73,442,102 between governmental activities are eliminated in the government-wide financial statements.

NOTE 3 – CASH AND INVESTMENTS

The County maintains a cash and investment pool that is available for use by all funds except those whose cash and investments must be segregated due to bond covenants or other legal restrictions.

A. Deposits

All deposits are held in qualified public depositories and are included on the accompanying balance sheet in cash and investments. The carrying amount of these deposits at September 30, 2011 was \$33,010,493 and the bank balance was \$39,394,437. All the deposits were covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized in accordance with the "Florida Security for Public Deposits Act". Under the Act, every qualified public depository shall deposit with the State Treasurer eligible collateral having a market value equal to a percentage of the average daily balance for each month that all public

deposits are in excess of any applicable deposit insurance. The collateral percentage ranges from 25% to 200%, depending on the credibility of the qualified public depository.

B. Investments

Section 218.415, Florida Statutes, the Board's Investment Policy, and various bond covenants authorize permitted investments, asset allocation limits and issuer limits, credit ratings requirements and maturity limits to protect the Board's cash and investment assets. The permitted investments include the following:

- Certificates of deposit
- Money market accounts
- Savings accounts
- 2 year Repurchase agreements
- Local Government Surplus Funds Trust Fund administered by the Florida State Board of Administration (SBA)
- Florida Local Government Investment Trust Fund
- Obligations of the U.S. Government
- Obligations of government agencies unconditionally guaranteed by the U.S. Government
- Obligations of the Federal Farm Credit Banks
- Obligations of the Federal Home Loan Mortgage Corporation, including Federal Home Loan Mortgage Corporation participation certificates
- Obligations of the Federal Home Loan Bank
- Obligations of the Government National Mortgage Association
- Obligations of the Federal National Mortgage Association
- Government guaranteed bank debt issued pursuant to the Troubled Asset Relief Program (TARP)
- Corporate obligations issued by financial institutions that participate in the FDIC's Temporary Liquidity Guarantee Program
- Obligations or Notes of U.S. corporations with at least two of the following three minimum ratings: A- by Standard and Poor's, A3 by Moody's, or A- by Fitch
- Securities of any management type investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. ss.80a-1 et seq., provided the portfolio is limited to U.S. Government obligations and to repurchase agreements fully collateralized by U.S. Government obligations.

The Florida Local Government Surplus Trust Fund ("Fund B") is accounted for as a fluctuating NAV pool. The Fund B does not meet the requirements of a SEC 2a7-like fund. The fund was established by Florida Statute 218.405 and is administered by the Florida State Board of Administration. The fair value factor for September 30, 2011 was 0.7568386. The County participates in the pool involuntarily since the close of the Fund in December 2007, due to the uncertainty of restructured and defaulted securities the fund owns. The pool releases funds to pool participants as each security matures.

Investment holdings consist of \$121,528,905 in direct obligations of the United States Treasury Securities, \$78,345,005 in direct debt issued by agencies of the U.S. Government which are backed by the full faith and credit of the United States, \$8,064,311 in FDIC guaranteed Corporate Obligations under the current Temporary Liquidity Guarantee Program, and \$47,048,022 in Corporate Obligations. These four types of investment are reported at fair value in accordance with GASB Statement No.31 "Accounting and Financial Reporting for certain Investments and for External Investment Pools". These investments are held in trust by US Bank, a depository, in the County's name.

Pursuant to a resolution and execution of a joined agreement, the County is also authorized to invest in the Florida Local Government Investment Trust (FLGIT). The FLGIT Day to Day fund is a money market product and was established in 2009 by the Florida Association of Court Clerks and the Florida Association of Counties to provide local governments with a professionally managed, short term liquidity investment pool. The fund was established by Florida Statute 163.01 and is administered by the Florida Association of Court Clerks. The fund is marked to market daily.

Except for the Florida Local Government Surplus Trust Fund ("Fund B"), investments are reported at fair value based on the average price obtained from an independent source. Fair value of the Fund B is based on the fair value per share of the underlying portfolio.

Interest receivable on the County's investment portfolios amounted to \$1,646,368 as of September 30, 2011.

1. Interest Rate Risk

The County's investment policy limits interest rate risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirements. In an effort to minimize interest rate risk, the County's investment policy requires that no individual security can have a maturity greater than five and one-half years. One exception is the Local Government Surplus Funds Trust Fund ("Fund B"). Because Fund B consists of restructured or defaulted securities, there is considerable uncertainty regarding the weighted average life. The weighted average life of Fund B at September 30, 2011 was 4.82 years.

2. Credit Risk

Authorized investments include only those securities with the highest credit ratings. The money market funds are rated AAAm by Standard & Poors. FLGIT Day to Day Fund has an investment rating of AAAm by Standard & Poors. The U.S. Treasuries, the Agencies, and the Corporate Obligations under the Temporary Liquidity Guarantee Program are rated AA+ by Standard & Poor's and Aaa by Moody's Investor Services. Three exceptions are the Local Government Surplus Funds Trust Fund ("Fund B"), Corporate Obligations, and the Certificates of Deposit. The Fund B is not rated by any nationally recognized statistical rating agency. Corporate Obligations are with at least two of the following three minimum ratings: A- by Standard and Poor's, A3 by Moody's, or A- by Fitch. The Certificates of Deposit are all collateralized in accordance with the "Florida Security for Public Deposits Act".

3. Custodial Credit Risk

The County's investment policy pursuant to Section 218.415(18), Florida Statutes requires that securities, with the exception of certificates of deposits, shall be held with a third party custodian; and all securities purchased by, and all collateral obtained by the County should be properly designated as an asset of the County. The securities must be held in an account separate and apart from the assets of the financial institution. A third party custodian is defined as any bank depository chartered by the Federal Government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida as defined in Section 658.12, Florida Statutes, or by a national association organized and existing under the laws of the United States, which is authorized to accept and execute trusts and which is doing business in the State of Florida.

As of September 30, 2011, the County's investments, except certificates of deposits, were held with a third-party custodian as required by the County's investment policy.

4. Concentration of Credit risk

The County's investment policy has established asset allocation and issuer limits on the investments, which are designed to reduce concentration of credit risk of the County's investment portfolio.

NOTE 4 – PROPERTY TAX REVENUES

Taxable values for all property are established as of January 1, which is the date of lien, for the fiscal year starting October 1. Property tax revenues recognized for the 2010-2011 fiscal year were levied in October 2010. All taxes are due and payable on November 1 or as soon as the assessments roll is certified and delivered to the Tax Collector. Discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes paid in March are without discount.

All unpaid taxes become delinquent as of April 1. Virtually all unpaid taxes are collected via the sale of tax certificates on or prior to June 1; therefore, there were no material taxes receivable at fiscal year end.

Transfers are used to 1) move revenues from the fund that is required to collect them by Florida Statutes and/or budgetary requirements to the fund that is required to expend them by those requirements, including amounts provided as matching funds for various programs, and 2) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due.

During FY2011, a one-time transfer in the amount of \$3,032,835 from the Internal Service Fund to various participating funds represents reimbursements for overfunded insurance premiums.

In addition, there was a one-time transfer in the amount of \$9,232,055 from a Nonmajor Proprietary Fund to a Nonmajor Governmental Fund. This transfer amount is not included in the table above and represents the change of fund type for the Sports Complex Fund from an enterprise fund to a special revenue fund. This one sided transfer represents the Sports Complex Fund capital assets and long-term debt transfer at the fund level.

For the governmental activities, claims and judgments and compensated absences are generally liquidated by the General Fund.

The County has general obligation, revenue, and special assessment bonds outstanding at year end. Payments on the general obligation and revenue bonds are made by the debt service funds. Revenue notes such as: South County Regional Stadium, Tourist Development Tax Revenue, Rock Road Jail Security, Fairgrounds, and both special assessment bonds are paid from debt service funds. The Parks Referendum

line of credit, Port Deepening, and MSBU interim line of credit are paid from special revenue funds. Also, the Energy Efficiency Revenue Note and two capital leases are paid from the General Fund.

During the fiscal year, the County issued two new governmental fund debts. The new debt includes the following issues:

- 1. On September 30, 2011 the Board of County Commissioners issued a \$6,225,000 Tourist Development Tax Improvement and Refunding Revenue Bond Series 2011A with a 2.37% rate of interest. This issue refunded the Tourist Development Tax Revenue Bonds, Series 2003, dated September 10, 2003 of which \$3,396,000 was outstanding. The net proceeds, after paying issuance costs of \$16,733 and \$20,000, \$3,188,000, along with \$272,726 of existing funds, was sent directly to the bank to retire the outstanding principal and interest on the bonds and \$3,000,000 was deposited to the St. Lucie County Sports Complex Project Fund. The aggregate difference in debt service between the refunded debt (\$4,011,389) and the refunding debt (\$3,697,487) is \$313,902. The economic gain is \$216,963. The deferred amount on refunding is \$64,726.
- 2. On September 30, 2011 the Board of County Commissioners issued a \$1,460,000 Tourist Development Tax Refunding Revenue Bond Series 2011B with a 3.31% rate of interest. This issue refunded the Improvement Revenue Note, Taxable Series 2003C, dated September 17, 2003 of which \$1,522,000 was outstanding. The net proceeds, after paying issuance costs of \$27,500, \$1,432,000, along with \$125,403, were sent directly to the bank to retire the outstanding principal and interest on the bonds. The aggregate difference in debt service between the refunded debt (\$1,891,940) and the refunding debt (\$1,797,975) is \$93,965. The economic gain is \$75,768. The deferred amount on refunding is \$35,043.

The revenue bonds, revenue notes, and special assessment bonds noted above are all secured by pledged revenues. The pledged revenues include special assessments, sales tax, state revenue sharing, transportation gas tax, tourist development tax, impact fees, charges for services, and other special taxes. The revenues are pledged through various commitments through 2035. The pledged revenues are the full amounts of the required annual debt payments. Special assessment revenues collected during the year represented 69% of the debt service costs. The percentage for Public Improvement Revenue Bonds was 38%, Sales Tax Bonds was 125%, and Utility Bonds was 185.33%.

D. Bond Covenants

North County Utilities

On October 1, 2005, the County combined and consolidated the North Hutchinson Island Water and Sewer System and the Holiday Pines Water and Wastewater System by Resolution 05-120. Subsequent to the consolidation, the funds and accounts established pursuant to the Holiday Pines Bonds Resolution shall be combined and consolidated with the corresponding funds and accounts established pursuant to the North Hutchinson Bonds Resolution, and shall thereafter consist of one set of funds and accounts.

The Bonds require that monies on hand in the revenue fund be applied on a monthly basis; first to pay operating expenses and next to deposit into the sinking fund one-sixth of the interest and one-twelfth of the principal accruing on the next payment dates. The County shall maintain separate subaccounts in the reserve accounts for the benefit of the Holiday Pines Bonds and the North Hutchinson Bonds. The reserve accounts must be maintained at their reserve account requirements. Money must next be deposited into the renewal and replacement fund equal to one-twelfth of the renewal and replacement requirement. Unrestored withdrawals must be paid into the renewal and replacement fund.

The County has agreed on the above bonds to establish and maintain rates that will provide for 120% of the debt service requirement and 100% of the operating expenses, the reserve account credit facility costs, and the renewal and replacement fund during the year.

The following table indicates the degree of compliance with the bond resolution covenants in the North County Utilities at September 30, 2011:

| Gross revenues available for compliance | \$ 5,603,101 |
|---|----------------------------|
| Operating and maintenance expenses (does not include depreciation, amortization, and debt payments) | 3,325,335 |
| Amount of revenues over direct operating expenses Debt service requirement | \$ 2,277,766 \$ 931,724 |
| Percent coverage for the year ended September 30, 2011 | 244.47% |

E. Summary of Defeased Debt Outstanding

In prior years, the County defeased certain debt, the proceeds of which were placed in an irrevocable trust to provide for all future debt service payments on the defeased bonds. As such, the trust assets and related liability are not included in the accompanying financial statements.

Following is a schedule of defeased debt at September 30, 2011:

| Bond Issue | Balance |
|---------------------|------------------|
| Utility Series 1990 | \$ 14,345,000 |
| Utility Series 1993 | 29,725,000 |
| Total defeased debt | \$ 44,070,000 |

F. Special Assessment Debt

The County is acting as the agent for the property owners in several municipal service benefit units located within the County. The County is not liable for repayment of the debt and is only collecting the assessments and forwarding the collections to the paying agent. As such, the debt related to these bond issues is not reflected on the accompanying financial statements.

The amount of the debt outstanding at September 30, 2011, is as follows:

| Fund # | and # Description | | Amount |

G. Capital Leases

1. The County has entered into a lease agreement as lessee with CitiCapital to construct water conservation equipment through Florida Power and Light. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date.

The property being leased has a cost of \$1,400,000 and a carrying value of \$875,000. The future minimum lease obligation and the net present value of these minimum lease payments as of September 30, 2011 were as follows:

| | Go | vernmental |

2. The County has entered into a lease agreement as lessee with Bank of America to purchase computer equipment. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date.

The property being leased has a cost of \$1,070,000. The amount being capitalized is \$551,501, with a carrying value of \$198,054. The future minimum lease obligation and the net present value of these minimum lease payments as of September 30, 2011 were as follows:

| Year Ending September 30, | ernmental Activities | ness-Type ctivities | Total |

| Present value of minimum lease payments | \$ 322,356 | \$ 10,643 | \$ 332,999 |

3. The County has entered into a non-cancellable software license purchase agreement with Pioneer Technology Group, L.L.C. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date.

The property being leased is included in the County's statement of net assets governmental activities column and has a cost of \$332,500 and carrying value of \$332,500. Due to the complication of the implementation process, the software is estimated to be fully implemented in January 2012. Therefore, depreciation expense was not recognized for FY 2011. The future minimum lease obligation and the net present value of these minimum lease payments as of September 30, 2011 were as follows:

| Year Ending September 30, | Governmental Activities | | |

NOTE 11 – LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and federal laws and regulations require the County to incur various estimated costs of closing landfill sites and to provide for the long-term care and maintenance of the landfill sites for up to 30 years after closure.

The amounts amortized are placed in interest bearing accounts in accordance with state regulations. The County utilized the landfill capacity used method to determine the amortization expense and accumulated amortization of these estimated costs. As of the balance sheet date, the estimated capacity used was 58.2% for the existing construction debris (C&D) landfill and 14.16% for the Class I Phase IIIB site, which began accepting waste in March 2010. All capacity has been used for the Class I Phase I site, Class 1 Phase II site, Class 1 Phase IIIA site, C&D Processing Facility, and the Airport site. The Class 1 Phase 1 and Airport sites are permanently closed. The closure of Class 1 Phase II and IIIA was completed January 26, 2012.

The County is required by state and federal laws and regulations to fund the liabilities associated with the estimated costs of closure and long-term care and maintenance of its landfill sites.

The County has restricted cash in an amount equal to the liability from restricted assets below. The federal and state regulations also require the County to provide for the estimated long-term care and maintenance costs for the next year at the Class I Phase I site and the Airport site.

The remaining estimated costs at the existing landfills, which total \$4,983,251, will be recognized in future years as the remaining estimated capacity is filled. The amounts are based on the cost estimates for closure and postclosure care as of the balance sheet date.

The liabilities included in the balance sheet for these estimated costs at September 30, 2011, are as follows:

| | Liability From Restricted Assets | Other Current Liabilities | Total |
|--|--|---------------------------------|---------------|
| Existing landfill sites: | 1135013 | Littofffees | |
| Class I Phase II closure costs | \$ 5,693,886 | \$ - | \$ 5,693,886 |
| C&D closure costs | 1,420,097 | (37,911) | 1,382,186 |
| C&D Processing Facility closure costs | 2,727 | - | 2,727 |
| Class I Phase IIIA closure costs | 2,446,584 | - | 2,446,584 |
| Class I Phase II long-term maintenance | 1,104,189 | 3,071,227 | 4,175,416 |
| C&D long-term maintenance | - | 196,920 | 196,920 |
| Class I Phase IIIA long-term maintenance | - | 1,782,321 | 1,782,321 |
| Class I Phase IIIB closure costs | 525,288 | (151,441) | 373,847 |
| Class I Phase IIIB long-term maintenance | | 261,266 | 261,266 |
| Total existing landfill sites | 11,192,771 | 5,122,382 | 16,315,153 |
| Previous landfill sites: | | | |
| Class I Phase I long-term maintenance | - | 3,691,664 | 3,691,664 |
| Airport site long-term maintenance | - | 2,026,864 | 2,026,864 |
| Total previous landfill sites | | 5,718,528 | 5,718,528 |
| Total liabilities | \$ 11,192,771 | \$ 10,840,910 | \$ 22,033,681 |

The Class I Phase IIIB site began accepting waste in March 2010. The federal and state regulations require \$525,288 to be set aside in the restricted cash and liability from restricted assets. The GAAP requires liability to reflect capacity used, which is \$373,847. Therefore, a negative amount of \$151,441 is presented in the other current liability column.

The federal and state regulations also require \$1,420,097 to be set aside in the restricted cash and liability from restricted assets for C&D closure costs. The GAAP requires liability to reflect capacity used, which is \$1,382,186. Therefore, a negative amount of \$37,911 is presented in the other current liability column.

The County currently expects to close the existing C&D site in the year 2030 and the existing Class 1 Phase IIIB site in the year of 2021. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County has established liabilities for the estimated postclosure care and maintenance on the previous landfill sites. The estimated costs for the postclosure care and maintenance of these sites are reflected as landfill closure liabilities in the accompanying balance sheet.

NOTE 12 – DEFINED BENEFIT PENSION PLANS

All the County's qualified employees participate in the Florida Retirement System ("FRS"), which is administered by the State of Florida Department of Management Services. Employees elect participation in either the defined benefit plan ("Pension Plan"), a multiple-employer cost sharing defined benefit retirement plan, or the defined contribution plan ("Investment Plan") under the FRS. After making the initial Florida Retirement System (FRS) retirement plan selection, employees can change plans one time during their FRS working career.

As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university,

community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Florida Retirement System was established in 1970 by Chapter 121, Florida Statutes. Rules governing the operation and administration may be found in Chapter 60S of the Florida Administrative Code. Changes to the System can only be made by an act of the Florida Legislature.

Effective July 1, 2011, a 3% contribution from employees became mandatory under the provisions of Chapter 121.71(3) Florida Statutes. This 3% employee contribution requirement applies to both Pension Plan and Investment Plan members, except those in DROP (Deferred Retirement Option Program), on a pretax basis. This Statute provision also affects the DROP annual interest rate, vesting period for all membership categories (excluding DROP), and the benefit calculation based on the effective employment date.

<u>Tables A - employment effective date before July 1, 2011</u> and <u>Table B - employment effective date on or after July 1, 2011</u> below summarize the membership categories, benefit, vesting period, and contribution rates. Benefits and contribution rates are determined by category and length of service.

Table A - employment effective date before July 1, 2011

| Deferred Retirement Option Program (DROP) from FRS | Accumulated FRS benefits earn 1.3% effective annual rate of interest, compounded monthly for a period up to 60 months after becoming vested, having reached normal retirement date and remaining employed. | Subject to normal system vesting provisions for membership category | Not Required | 4.42% |

For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs at one year of service. These participants receive a contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration. Participating employer contributions are based upon actuarially determined state-wide rates established by the State of Florida, that are expressed as percentages of annual covered payroll, adequate to accumulate sufficient assets to pay benefits when due. The contribution requirement for the years ended September 30, 2011, 2010, and 2009 were \$10,076,918, \$10,823,310, and \$10,601,232, respectively, which is equal to the required contribution for each year. The employee contribution portion for the year ended September 30, 2011 was \$532,029.

The Florida Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the Division of Retirement, 1317 Winewood Blvd, Building 8, Tallahassee, Florida 32399-1560 or by calling 850-488-5541.

NOTE 13 – OPERATING LEASES

A. Operating Leases – Governmental Activities

The County has entered into various operating leases both as lessor and lessee. Lease revenues totaled \$1,419,949 and lease expenditures totaled \$1,600,307 for the current fiscal year.

The following is a schedule by year of the future minimum lease receipts and payments of the various non-cancelable operating leases in which the County is involved:

| Year Ending September 30, | Receipts | Payments | | |
|---------------------------|---------------|-----------------|--|--|
| 2012 | \$ 841,051 | \$ 653,740 | | |
| 2013 | 737,937 | 540,379 | | |

| 2057 - 2061 | 444,813 | 2,700 | | |
| 2062 - 2066 | - | 1,500 | | |
| 2067 - 2071 | | 900 | | |
| Total | \$ 17,978,001 | \$ 2,304,228 | | |

Most leases provide for future increases based upon the consumer price index. Those increases are not reflected in the computation of future lease receipts. The property being leased included in the Statement of Net Assets has a cost of \$6,248,916 and a carrying value \$3,159,983. For fiscal year 2011, total depreciation expense for depreciable property being leased is \$154,744.

B. Operating Leases – Business-type Activities

1. The County is obligated under an airport land lease for the Golf Course Fund. The lease does not give rise to property rights or lease obligations. Total costs for such lease was \$275,000 for fiscal year 2011. The following is a schedule by year of the future minimum lease payments of the airport land lease in which the County is involved:

| Year Ending September 30, | Payments | |
|---------------------------|-----------------|-----------|
| 2012 | \$ | 275,000 |
| 2013 | | 275,000 |

| 2016 | | 275,000 |
| 2017 - 2020 | | 1,100,000 |
| Total | \$ | 2,475,000 |

2. The County is obligated under various operating leases for the proprietary funds. The leases do not give rise to property rights or lease obligations. Total costs for such leases were \$86,933 for fiscal year 2011.

The following is a schedule by year of the future minimum lease payments of the operating leases in which the County is involved:

| | | | • | Office |

| 2013 | | 17,050 | | 3,601 |
| Total | \$ | 85,248 | \$ | 17,249 |

NOTE 14 – CONDUIT DEBT

From time to time, the County has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The County has also participated with other counties in the issuance of Housing Authority Bonds to provide down payment and other financial assistance to low and moderate income individuals and families. The bonds are secured by the property financed and are payable solely from payments received on the underlying debt. Upon repayment of the bonds, ownership of the required

facilities transfers to the private-sector entity, or individuals, served by the bond issuance.

Neither the County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of September 30, 2011, there were two Industrial Revenue Bonds Series outstanding. The aggregate outstanding principal amount for these series as of September 30, 2011, was \$320,995,000.

The St. Lucie County Housing Finance Authority has participated with other authorities on eight Housing Finance Authority bonds. The aggregate outstanding principal amount for these series as of September 30, 2011, was \$119,640,000.

The Reserve Community Development District outstanding conduit debt totaled \$3,825,000.

NOTE 15 – FUND BALANCES

1. Fund Balance Restatement

The MSBU External Financed Project Funds has a beginning fund balance restatement as a result of prior years's special assessment revenue correction.

| Governmental Funds: | | | |
| Florida Housing Grant Fund | \$ | (77,297) | |
| Sports Complex Fund | \$ | (112,437) | |
| Enterprise Fund: | | | |
| Golf Course Fund | \$ | (3,841,772) | |

NOTE 17 – RISK MANAGEMENT

General Liability, Property and Worker's Compensation

The County is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, and natural disasters. The Board and other Constitutional Officers (other than the Sheriff) comprising the primary government, participate in a public entity risk pool for the purpose of obtaining various insurance coverage other than health and life insurance. Other members of the pool consist of two municipalities and a county. The pool was created by an interlocal agreement under the provisions of Section 163.01, Florida Statutes. The governing Board of Directors of the pool, which is comprised of representatives of each of the members, has the authority to contract for claims servicing and risk management and loss prevention services. The Board and other Constitutional Officers (other than the Sheriff) pay their share of contributions into the pool based on the value of covered property, prior claims experience, and allocated expenses. Required contributions are considered expenditures when the liability is incurred. Members of the pool are responsible for deficiencies arising from specific claims if claims are in excess of reinsurance limits. The County has no other costs, other than deductible amounts, in connection with the risk pool.

The County is self insured for group health insurance covering employees and their eligible dependents. As required by Section 112.081, Florida Statutes, retirees and their eligible dependents are provided the same health care coverage as is offered to active employees; however, the retirees are responsible for payment of the premiums. Medical claims are paid from premiums contributed by employees, retirees, and the County. Premiums and contributions are determined by projected claims based on historical and actuarial experience. The self insurance plan assumes all risk for claims up to \$125,000 per individual, per year, and has purchased a reinsurance policy to cover claims in excess of this amount. There were three claims in excess of the limit for fiscal year 2011, ten claims in fiscal year 2010 and eight claims in fiscal year 2009.

The IBNR (incurred but not reported) claims liability of \$1,460,000, reported at September 30, 2011, is based on the requirements of generally accepted governmental accounting standards, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss can be reasonably estimated. Estimates for claims incurred but not reported are actuarially determined and recorded and are generally payable within the next year. Nonincremental claims and adjustment expenses have been included as part of the claims liability.

| | | Changes in | | |
|-------------|-----------|-----------------|------------|-----------|
| | Beginning | Estimates and | Claim | Ending |
| Fiscal Year | Balance | Claims Incurred | Payments | Balance |
| 2008-2009 | 2,844,267 | 11,287,981 | 12,561,998 | 1,570,250 |
| 2009-2010 | 1,570,250 | 10,513,532 | 10,623,862 | 1,459,920 |
| 2010-2011 | 1,459,920 | 10,362,192 | 10,362,112 | 1,460,000 |

The Sheriff joined with other Sheriffs in the state to form the Florida Sheriff Self Insurance Fund, a public entity risk pool, under the provision of state statutes. The Sheriff pays its share of contributions into the pool based on the value of the property covered, prior claims experience and allocation of experience. These contributions are considered expenditures when the liability is incurred. The Sheriff has no other costs other than deductible amounts in connection with the risk pool.

The Sheriff also participated in a group health insurance risk pool and a workman's compensation risk pool together with other sheriffs in the state. These plans are administered by the Florida Sheriff's Association Multiple Employer Trust and the Florida Sheriff's Association respectively. An expenditure is recognized for contributions made by the Sheriff into the pools based on historical claims information.

The Sheriff also continues to carry commercial insurance for the risk of loss on watercraft and aviation equipment.

NOTE 18 – POST EMPLOYMENT BENEFITS

The County has two single employer defined benefit healthcare plans, the County plan and the St. Lucie Sheriff's Office plan.

The County plan allows its employees and their beneficiaries to continue obtaining health, dental, and other insurance benefits upon retirement. The County amended its policy effective October 1, 2004, for employee retirements after that date, to provide for payment of the monthly single premium for the employee and \$100 toward the cost of eligible dependent coverage, if covered at the time of retirement, for employees who meet the following eligibility requirements:

- Active full time employee with 10 years of continuous service with the County covered by the health plan at the time of retirement.
- Either 30 years of service under the Florida Retirement System (FRS), vested under the FRS and normal retirement age or 62 years old.
- Monthly premiums will be paid until the retiree becomes Medicare/Medicaid eligible. The \$100 supplement for dependent coverage will continue until the dependent becomes eligible for coverage under another group plan or becomes Medicare/Medicaid eligible.

The benefits of both the County's plan and the Sheriff's plan conform to Florida Statutes, which are the legal authority for the plan.

The St. Lucie Sheriff's Office plan provides postemployment health insurance benefits for employees and sworn officers upon retirement and subsidizes a portion of the premiums. The provisions of the plan for the St. Lucie Sheriff's Office may be amended through negotiations between the St. Lucie Sheriff's Office and its employee bargaining units.

Both plans have no assets and do not issue separate financial reports.

The numbers of plan participants for the County Plan and the St. Lucie Sheriff's Office Plan are as follows:

| | St. Lucie |
|-------------------------|------------------|
| | Sheriff's Office |
| County Plan | Plan |
| Active employees 1,03 | 0 618 |
| Retirees and spouses 6 | 52 |
| Total participants 1,09 | 4 670 |

The County and St. Lucie Sheriff's Office annual other postemployment benefit (OPEB) cost for the plan is calculated based on the annual required contribution of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The annual required contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed thirty years. Neither plans

fund its OPEB plan in a trust. The annual OPEB cost for the County and the St. Lucie Sheriff's Office for the current year and the related information are as follows:

| | | County Plan | | St. Lucie eriff's Office Plan |
|--|----|--------------|----|-------------------------------|
| Required contribution rates: | | | | |

Funded Status and Funding Progress

The funding status of the County plan as of October 1, 2010 was as follows:

| Actuarial accrued liability | \$22,061,147 |
|---|--------------|
| Actuarial value of plan assets | \$0 |
| Unfunded actuarial accrued liability | \$22,061,147 |
| Funded ratio | 0% |
| Covered payroll | \$40,227,839 |
| Unfunded actuarial accrued liability as a | |
| percentage of covered payroll | 54.80% |

The funding status of the St. Lucie Sheriff's Office plan as of July 1, 2009 was as follows:

| Actuarial accrued liability | \$24,477,292 |
|---|--------------|
| Actuarial value of plan assets | \$0 |
| Unfunded actuarial accrued liability | \$24,477,292 |
| Funded ratio | 0% |
| Covered payroll | \$31,629,251 |
| Unfunded actuarial accrued liability as a | |
| percentage of covered payroll | 77.39% |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the possibility of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information (page 90) is designed to provide multi-year trend information to show whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liability for benefits. However, neither plan has contributed assets to its plan at this time.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the County and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows.

NOTE 19 – COMMITMENTS AND CONTINGENCIES

A. Litigation

Various suits and claims arising in the ordinary course of County operations are pending. The County is party to litigation under which it is the opinion of the County Attorney that the potential amount of the County's liability in these matters will not be material to the financial statements. Accordingly, no provision has been made in the financial statements for these contingencies.

B. Construction Contracts

At September 30, 2011, the County has various contracts for engineering and construction projects in process totaling \$12,470,567 for which goods and services have not been received.

C. Grants

Amounts received, or receivable, from grantor agencies are subject to audit and adjustment by grantor agencies. If any expenditure is disallowed as a result of these audits the claims for reimbursement to the grantor agency would become a liability of the County. In the opinion of management, any such adjustment would not be significant.

D. Arbitrage Liabilities

As of September 30, 2011, the County does not have any contingent arbitrage liabilities for the governmental funds

St. Lucie County, Florida Notes to Financial Statements (Continued) Year Ended September 30, 2011

NOTE 20 – SUBSEQUENT EVENTS

On November 10, 2011, the County issued Capital Improvement Refunding Note, Series 2011 in the amount of \$10,330,000. The proceeds are used to pay off the Capital Improvement Refunding Revenue Note, Series 2008.

On June 21, 2011, the County entered into a capital lease agreement with SunGard Public Sector Inc. for a CAD (Computer Aided Dispatch)/Records Management Systems. The total cost will be determined when the project is completed. The anticipated completion date is late Fiscal Year 2012. The funding source for this project results from an inter-local agreement with the Board of County Commissioners, the City of Port St. Lucie, the City of Fort Pierce, the St. Lucie County Sheriff, and the St. Lucie County Fire District.

NONMAJOR ENTERPRISE FUNDS

Nonmajor Enterprise Fund Descriptions

Enterprise Funds

Enterprise funds impose fees or charges on those who use their services, primarily to customers outside the financial reporting entity.

<u>South Hutchinson Utilities Fund</u> – The fund accounts for the operation of a wastewater treatment plant for certain residents in various sections of the County.

<u>Sports Complex Fund</u> – The fund is used to account for operating revenues and the 2-cent tourism tax revenues to pay for the operation and maintenance of the facility.

<u>Building Code Fund</u> – The fund is used to account for permit fees to pay for the expenses for building code compliance.

St. Lucie County Tax Collector, modified by the Clerk of the Circuit Court to reflect property taxes collected on behalf of the County.

Notes:

- (1) Total tax levy amounts reflect property taxes collected on behalf of St. Lucie County only. This amount represents the original levy plus additions, penalties, errors, and other adjustments.
- (2) Current tax collections represents only the cash collected. All taxes are due and payable on November 1, of each year or as soon thereafter as the assessment roll is certified and delivered to the Tax Collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in December, 2% in January and 1% in February. The taxes paid in March are not discounted.
- (3) The delinquent tax collections include delinquent tangible personal property taxes and County tax certificates.

Computation of Legal Debt Margin September 30, 2011

Schedule 10

The Constitution of the State of Florida, Florida Statute 200.181, and St. Lucie County set no legal debt limit.

Source: Outstanding debt data for the overlapping governments is provided by the applicable government.

Note: Government units that are included in this schedule are those whose geographic boundaries overlap, at least in part, with the boundaries of the County. This schedule estimates the portion of the overlapping government's outstanding debt that is borne by the residents and businesses of St Lucie County. This process recognizes that, when considering the County's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt of each overlapping government.

(1) These percentages are estimated using assessed values of taxable property less homestead exemptions and other adjustments (taxable value). Applicable percentages were estimated by determining the portion of another governmental units taxable value that is within the County's boundaries and dividing it by each unit's total taxable value.

Notes:

- (1) On September 1, 2009 the Landfill bond was paid in full. Therefore the landfill and utility bond section for FY 2010 forward only reflects annual debt service principal and interest payments for the utility bonds.
- (2) The County issued Special Assessment Bonds for South Hutchison Island in previous years but reclassified the bonds as a county debt in FY 2009. The SHI bond and revenue collections are not presented in the schedule from FY 2002 through FY 2008.
- (3) The Special Assessment Collections section reflects revenue for current year collections. The decline in revenue for FY 2010 and FY 2011 is due to prepayments of assessments in prior fiscal years.
- (4) The Public Improvement Revenue Bonds were refunded in FY 2004. The principal payments in prior years were structured to be higher in the years the County had interlocal agreements to pay on the bonds. The interlocals ended in FY 2010 and the principal payments were structured to be lower for FY 2011 and forward.

Details regarding the County's outstanding debt can be found in the notes to the financial statements. Gross revenues includes Charges for Services, Miscellaneous Revenue and Interest Revenue. Operating expenses do not include Closure and Post Closure Care costs, interest, depreciation, or amortization expenses.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of County Commissioners St. Lucie County, Florida

We have audited the financial statements of St. Lucie County, Florida (the County) as of and for the year ended September 30, 2011 and have issued our report thereon dated March 26, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of St. Lucie County, Florida is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

The Honorable Board of County Commissioners St. Lucie County, Florida

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of Management, the Board of County Commissioners and Constitutional Officers, others within the entity, the Auditor General of the State of Florida and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT
ON EACH MAJOR PROGRAM AND STATE PROJECT AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133
AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

The Honorable Board of County Commissioners St. Lucie County, Florida

Compliance

We have audited the compliance of St. Lucie County, Florida (the County) with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement and the requirements described in the Florida Department of Financial Services Projects Compliance Supplement that could have a direct and material effect on each of its major federal programs and state projects for the year ended September 30, 2011. The County's major federal programs and state projects are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs and state projects is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and Chapter 10.550, Rules of the Auditor General. Those standards, OMB Circular A-133 and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program and/or state project occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County's complied, in all material respects, with the compliance requirements referred to above that are could have a direct and material effect on each of its major federal programs and state projects for the year ended September 30, 2011.

The Honorable Board of County Commissioners St. Lucie County, Florida

Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs and state projects. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program and/or state project in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB circular A-133 and Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the entity, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

St. Lucie County, Florida Notes to Schedule of Expenditures of Federal Awards and State Projects Year Ended September 30, 2011

1. Summary of Significant Accounting Policies

General

The Schedule of Expenditures of Federal Awards and State Projects has been prepared using the modified accrual basis of accounting. The modified accrual basis of accounting recognizes revenues when they become measurable and available as net current assets and expenditures when the related fund liability is incurred.

2. Program Clusters

OMB Circular A-133 defines a cluster of programs as a grouping of closely related programs that share common compliance requirements. According to this definition, similar programs deemed to be a cluster of programs are tested accordingly.

3. Contingency

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of St. Lucie County, Florida. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.
